

Mehwish Mubeen

MERN Stack Developer

+923021859988 | mehwish88f@gmail.com | Lahore, Pakistan (Remote-Ready)

github.com/mehwishmubeen-2 | portfolio-meh.netlify.app

PROFESSIONAL SUMMARY

Computer Science undergraduate (7th Semester, COMSATS University Lahore) with solid hands-on experience across the full MERN stack — MongoDB, Express.js, React.js, and Node.js. Familiar with Next.js and TypeScript. Self-motivated, detail-oriented, and comfortable working independently in a remote environment. Passionate about building scalable, impactful web applications and continuously growing as a developer.

TECHNICAL SKILLS

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, CSS Modules, JavaScript (ES6+), TypeScript

Backend: Node.js, Express.js, REST API Development & Integration

Databases: MongoDB (Schema Design, CRUD, Atlas), Supabase

API & Tools: Axios, Fetch API, Postman, Git, GitHub, Vite, Netlify, VS Code

PROJECTS

Snapbook — Photographer Booking Platform | React.js, Node.js, Express.js, MongoDB, REST APIs

- Built end-to-end MERN application with fully responsive React frontend connected to Express.js and MongoDB backend.
- Designed and integrated REST API routes for photographer profiles, booking management, and user authentication.
- Implemented reusable component architecture with clean, maintainable code and mobile-first responsive design.

Signverse — Sign Language Web App | TypeScript, React.js, Node.js, Express.js, MongoDB

- Developed a full-stack MERN application using TypeScript and React.js for a typed, scalable frontend codebase.
- Built accessible, responsive UI with consistent component design and seamless REST API integration.
- Applied clean code principles and reusable styling patterns throughout the application.

Personal Portfolio | React.js, Vite, Node.js, Groq REST API, Netlify

Live: <https://portfolio-meh.netlify.app>

- Designed and deployed a live responsive portfolio website in React.js with clean component-based architecture.
- Integrated an AI chat assistant via REST API (Groq SDK / Llama 3) — demonstrates real-world API consumption and dynamic UI building.
- Independently deployed and maintained on Netlify with version control via GitHub.

EDUCATION

Bachelor of Science — Computer Science (7th Semester)

COMSATS University Islamabad — Lahore Campus | 2023 – Present

Relevant Coursework: Web Development, Software Engineering, Database Systems, Data Structures, OOP, Computer Networks

KEY STRENGTHS

Full MERN Stack Development | REST API Integration | Responsive & Mobile-First UI | Clean & Maintainable Code
| Remote-Ready | Fast Learner | Self-Motivated
